## TRADING TERMS AND CONDITIONS OF SALE

---

### GENERAL

The following Terms and Conditions shall be applicable to all offers and transactions made by the SELLER — AustraHort Pty Limited. The term seeds, goods and products as used hereafter shall mean not only seeds, but also plants and parts of plants or any other genetic material of plant species and commodities sold by the company.

### OFFERS AND PRICES

All prices are expressed in Australian Dollars FOB exclusive of GST. Prices are subject to change without notice. Published price lists supersede all previous lists. All species are available in trial packets of 2g or 20sds at \$9.50 each plus postage and any other applicable charges.

### PRICE STRUCTURE

- 10g — calculated at half the 25g rate unless specifically listed per 10gm.
- 25g to 249g — calculated in multiples of the 25g rate.
- 250g and over — calculated using the kg price.
- 1000sds to 9999sds — calculated using the 1000sds price.
- 10,000sds and over — calculating using the 10,000sds price where applicable.

### PLACEMENT OF ORDERS

Import Permits or other authorizing documents of the importing country, if applicable, must be advised with the order.

### DESPATCH

Orders will be despatched as soon as convenient after receipt of order. Items not available shall be placed on back order for supply as the item becomes available, unless specified to the contrary. Perishable seeds and those of a seasonal nature may not always be available from stocks thus delay may be anticipated until freshly collected.

### BACKORDERS

Notwithstanding the above, we will endeavour at all times to cover backorders within twelve months as the seed becomes available.

MINIMUM ORDER VALUE AU\$35.00

### OWNERSHIP

Sales will be made in accordance with the buyers wishes either FOB, C and F or CIF. Please note that ownership passes to the buyer once the goods are handed to the designated method of transport, accordingly, it is then that the buyers

insurable risk and ownership attaches to the shipment

### PAYMENT TERMS

Payment must be received prior credit arrangements have been made. Where credit is extended, payment is due within 30 days from month end.

### CANCELLATION OF ORDERS AND RETURN OF GOODS

Orders once placed may only be cancelled with the sellers consent. No goods may be returned without first obtaining authorisation from the seller. No returns will be considered unless they are in the original, unopened packaging of the seller.

### EDIBLE SEEDS

Reference to edible seeds expressly excludes the seeds we sell for propagation. It is the resultant crop only that may be considered edible.

### SEED COUNTS

Seed counts provided are an approximation for your guidance

### WARRANTY

1. Except as set out in writing by us, all warranties, representation, promises, conditions or statements regarding the goods supplied, whether expressed or implied and whether statutory or otherwise are to the full extent permitted by law hereby expressly excluded.
2. Our liability for a breach of a condition of or warranty in this agreement is limited to any one or more of the following (at our option)
  - a. the replacement of the goods or the supply of equivalent goods: or
  - b. the payment of the costs or replacing the goods or of acquiring goods.
3. In no event will we be liable for any special, incidental, indirect or consequential damages or exemplary or punitive damages or damage to personal property.
4. All cultural advice, treatments, and descriptions including but not limited to: seed counts, colour, height, germination rate, growth rate are provided gratis and in good faith as approximations. Significant variations may occur due to climate, location, cultural conditions and factors beyond the control of the seller.

### INVOICE WEIGHTS ARE NETT WHEN PACKED

The placing of an order by any means, conveys familiarity with our trading conditions and signifies buyers acceptance of same.

## GRASS SEED

Coupled with this intermittence is the relatively high cost of collection and the absence in the main, of anything but rudimentary harvesting equipment thus without the presence of significant demand factors, the creation of an economic commercial industry is some time away.

The Seed Industry of Australia has adopted a code of practice, the broad principles of which we are keen to see reflected in the native seed trade. The adoption of these principles would see seed purchased and sold under known specification and analysis.

Seed Testing details should be requested if relevant to your purposes.

The following species are selected for application to a number of different uses including amenity, mine sites and roadside revegetation and pastoral sowings. Prices can be obtained on application and will be influenced by crop results and quantities required

Native grasses and legumes were well regarded by farmers well into the early half of the twentieth century and are now enjoying a resurgence of community interest particularly as revegetants of mine sites or disturbed areas

## GOOD SEED DOESN'T COST, IT PAYS!
